

## **2021 Fort Drum Regional Economic Impact**

A Report on the Direct, Indirect, and Induced Impacts of Fort Drum Spending for the Federal Fiscal Year Ending September 30, 2021.

**The Model:**

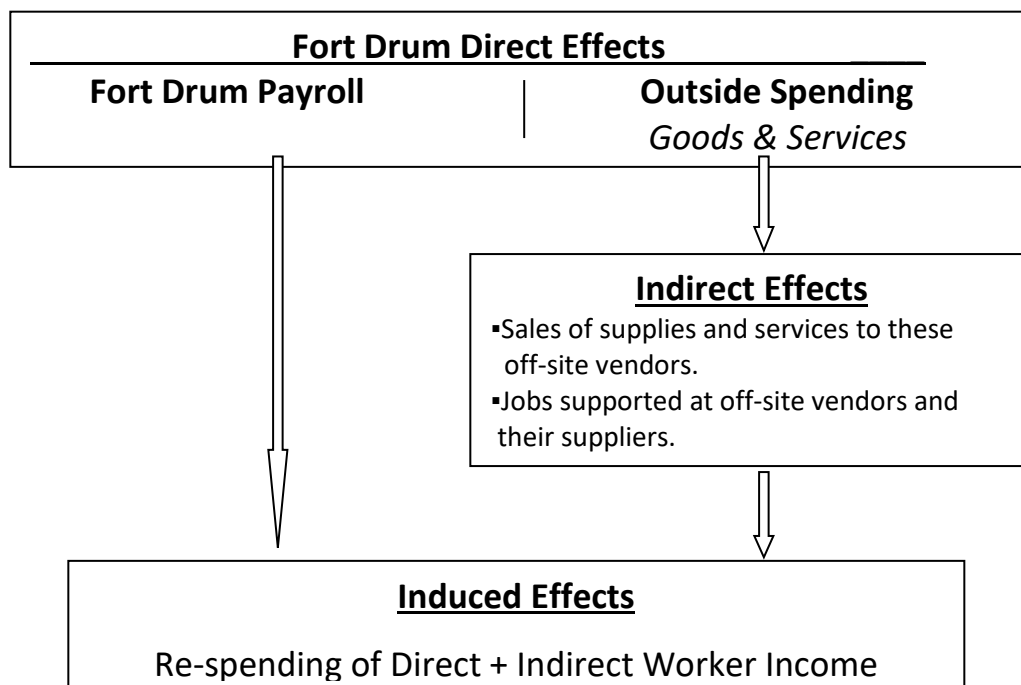

The Fort Drum Regional Liaison Organization’s economic impact model for Fort Drum spending is an IMPLAN based model developed by the Economic Development Research Group, Inc., Boston, MA. The model is maintained by the Jefferson County Planning Department, which inputs the data. The inputs are provided by Fort Drum in its annual Economic Impact Statement, which reports spending in several categories. In calculating the economic outputs, the model identifies direct impacts by sector and then develops a set of indirect and induced impacts by sector through the use of industry-specific multipliers, local purchase coefficients, income-to-output ratios, demographic patterns, and other factors and relationships.

**Types of impacts:**

**Direct Impacts** – The direct economic effects comprised of 1) payroll (military and civilian on-post employees, including contract workers) spent by the US Department of Defense, and 2) non-payroll (outside) spending by the Department of Defense to vendors providing goods and services to Fort Drum.

**Indirect Impacts** – The indirect economic effects are additional business sales, off-site jobs, and income supported by Fort Drum’s non-payroll expenditures for services and supplies. The magnitude of the total indirect effect depends on the types of purchases made and the extent to which those purchases go to businesses located within the region.

**Induced Impacts** – The economic result from re-spending of the wages associated with direct and indirect employment. As workers re-spend their income on consumer purchases, they generate business sales and employment in other sectors of the economy.

# Fort Drum Regional Economic Impact – FFY 2021

Presenting the results of the Fort Drum Regional Economic Impact Model

Tri-County Region Economic Impact (Jefferson, Lewis, St. Lawrence) & rest of NYS			
<i>Economic Impacts</i>	<i>Direct</i>	<i>Indirect/Induced</i>	<i>Total</i>
Gross Output (\$ millions)	\$ 1,535.7*	\$ 420.9	\$ 1,956.6
GRP (\$ millions)	\$ 1,101.1	\$ 277.3	\$ 1,378.4
Labor Earnings (\$ millions)	\$ 1,101.1	\$ 224.7	\$ 1,325.8
Employment	19,568	6,340	25,909

Note that the Gross Output, GRP, and Labor Earning are alternative views of the same economic impacts and cannot be added together.

\*Direct total may not match data published by Fort Drum due to tabulation variables.

## Tri-County Impacts - Fort Drum Regional Economic Impact Model

The Tri-County economic impacts are estimated using an IMPLAN input/output modeling tool developed by Economic Development Research Group, Inc. under contract with the Advocate Drum. Multipliers trace the impact of military and civilian payroll, as well as Fort Drum construction and non-construction expenditures through the regional economy.

So what does this mean? **Direct Impacts** are comprised of payroll for military and civilian on-post employees, including contract workers, and non-payroll spending by Fort Drum to vendors providing goods and services to Fort Drum. **Indirect Impacts** are additional, off-base jobs and income supported by Fort Drum’s purchasing of services and supplies from businesses located within the region. Lastly, **Induced Impacts** are the re-spending of wages associated with both direct and indirect impacts. As workers re-spend their income on consumer purchases, they generate business sales and employment in other sectors of the economy.

### Gross Business Output –

Fort Drum’s payroll, construction, and non-construction spending for FFY 2021 totaled \$1.53 billion\*. This included \$262.7 million in goods and services purchased directly from the tri-county region’s businesses. The re-circulation of Fort Drum spending and payroll through the economy created \$420.9 million in additional business sales that can be added to the installation’s \$1.53 billion\* in direct spending for the purposes of measuring the total annual economic activity within the region. This yields a total gross business output of \$1.96 billion during FFY 2021.

### Gross Regional Product (GRP) –

GRP is a measure of value-added economic activity occurring within the region. It is the value of business output in the region minus the cost of materials and services purchased from other businesses in or outside the region. It thus represents the value of wages plus net business profits. Since Fort Drum does not produce any value-added commodities, its direct value-added activity is limited to the \$1.1 billion in wages entering the region’s economy. Adding its indirect/induced GRP of \$277.3 million yields a total FFY 2021 GRP of \$1.38 billion.

### Impact on Labor Earnings –

Of Fort Drum’s indirect and induced effects on GRP (\$420.9 million), \$224.7 million is wage income related to off-post jobs. Adding Fort Drum’s \$1.1 billion in direct payroll entering the regional economy yields a total personal income impact of \$1.3 billion during FFY 2021.

### Impact on Employment –

The employment created by this additional economic impact includes 6,340 additional tri-county jobs outside of Fort Drum that would not exist otherwise. In other words, these 6,340 jobs are associated with the additional \$224.7 million in wages cited above. Adding Fort Drum’s 15,656 military jobs and the 3,912 civilian jobs yields a total employment impact of 25,908 jobs during FFY 2021. Federal Fiscal Year 2021 was October 1, 2020 to September 30, 2021.

## Individual County Economic Impacts within the Tri-County Area and the Rest of New York State – 2021

### Economic Impacts (jobs and millions of dollars)

Direct Impact (Fort Drum operation), by place-of-residence*	Jefferson County	Lewis County	St. Lawrence County	Rest of New York State	Total
Gross Output	\$1,294.1	\$63.3	\$49.9	\$128.4	\$1,535.7
GRP (Value Added)	\$1,006.0	\$57.0	\$24.9	\$13.2	\$1,101.1
Labor Earnings (Wages & Salaries)	\$1,006.0	\$57.0	\$24.9	\$13.2	\$1,101.1
Employment	17,850	1,100	411	207	19,568

\* Fort Drum is located in Jefferson Co.; this table shows how direct impacts accrue to residents of Jefferson Co. and other areas.

#### Indirect & Induced Impact (beyond Fort Drum), by location of impact

Gross Output	\$404.1	\$8.6	\$3.6	\$4.6	\$420.9
GRP (Value Added)	\$266.2	\$5.6	\$2.4	\$3.0	\$277.3
Labor Earnings (Wages & Salaries)	\$215.8	\$4.6	\$1.9	\$2.5	\$224.7
Employment	6,087	129	55	69	6,340

#### Total Impact

Gross Output	\$1,698.3	\$71.8	\$53.6	\$133.0	\$1,956.6
GRP (Value Added)	\$1,272.2	\$62.7	\$27.3	\$16.3	\$1,378.4
Labor Earnings (Wages & Salaries)	\$1,221.7	\$61.6	\$26.8	\$15.7	\$1,325.8
Employment	23,938	1,229	465	277	25,908

Note: Direct impacts occur on-base; indirect and induced impacts occur elsewhere in the region/state. Fort Drum is located in Jefferson County, this table shows how direct impacts accrue to residents of Jefferson, St. Lawrence, and Lewis Counties as well as the rest of New York State.

### Local Fiscal Impacts (millions of dollars)\*\*

Tax Revenues	Jefferson County	Lewis County	St. Lawrence County	Rest of New York State	Total
Property Tax	\$25.5	\$1.3	\$1.2	\$3.7	\$31.7
Sales Tax	\$36.8	\$2.2	\$2.3	\$7.1	\$48.4
Federal/State/Other Aid	\$14.6	\$0.9	\$0.9	\$2.8	\$19.2
Aid to School Districts	\$51.0	\$3.7	\$4.1	\$13.2	\$72.1
Other Revenue	\$0.3	\$0.0	\$0.0	\$0.1	\$0.4
<b>Total Revenue Impact</b>	<b>\$128.3</b>	<b>\$8.0</b>	<b>\$8.6</b>	<b>\$27.0</b>	<b>\$171.8</b>

\*\* Includes revenues to and expenditures by counties, cities, towns, villages, school districts, and fire districts

## JOBS IMPACT

**With 19,568 civilian & military personnel, Fort Drum is the largest single-site employer in New York State.**

Fort Drum related employment:

Military personnel	15,656
Civilian personnel	<u>3,912</u>
	19,568
Indirect off-post jobs	<u>6,340</u>

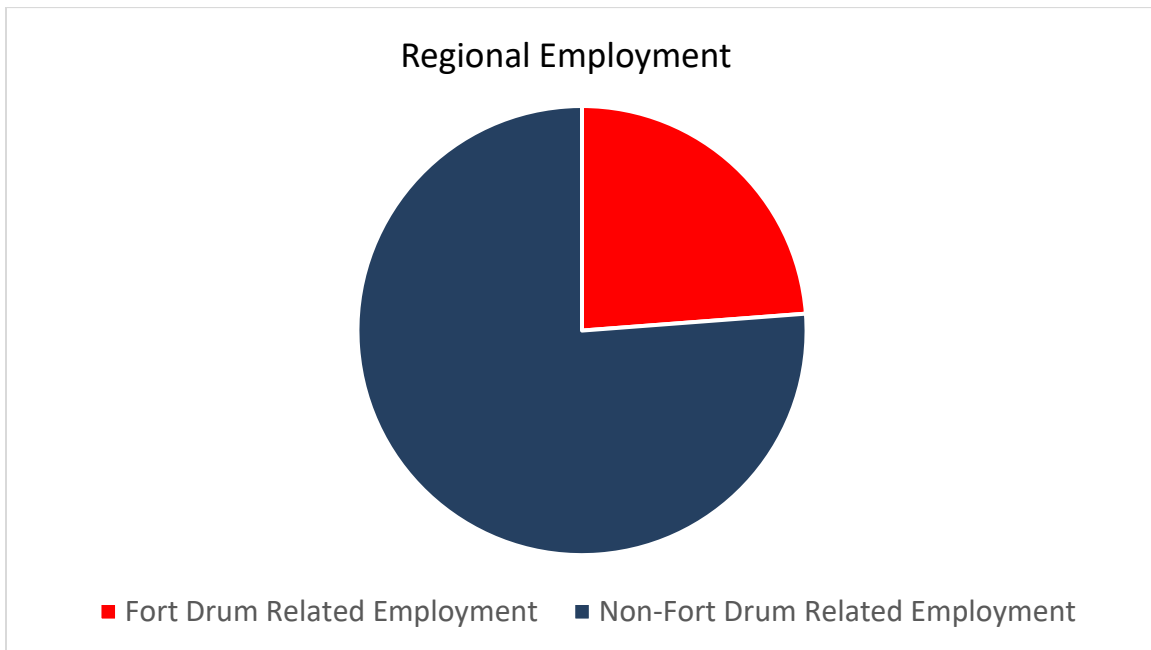

***Total Fort Drum related employment*                    25,908**

Total regional employment, September 30, 2021 (From NYS Dept. of Labor)

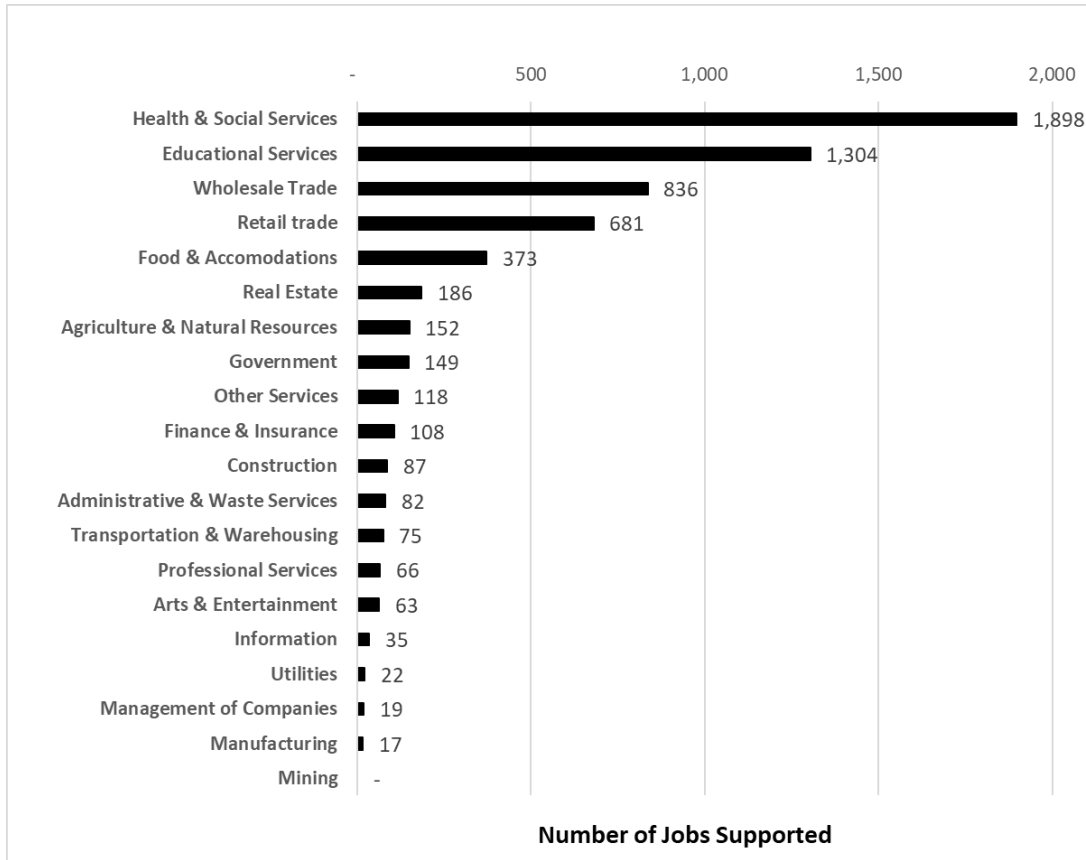

Jefferson County	41,800
Lewis County	10,900
St. Lawrence County	40,500
Active Military*	<u>15,656</u>
	108,856

*\* Active military personnel are not included in DOL reporting and have to be added.  
Civilian personnel are already included in DOL data.*

**Fort Drum related jobs (direct & indirect) represents 23.6% of wage earners in the Tri-County region.**
